How to install global protect (windows version)

- 1. Click [Start]menu \rightarrow [Settings] (Gear icon) \rightarrow [Apps] \rightarrow [Apps & features].
- 2. If [Choose where to get apps] is [The Microsoft Store only(recommended)], select [Anywhere, but warn me before installing an app that's not from the Microsoft Store]. This is a temporary change. This will be changed back at the end of the procedure.
- 3. Access <u>https://vpn-matsue2.shimane-u.ac.jp/</u> with a web browser, enter your user ID and password of the Shimane University integrated authentication system in Username and **Password**, and click **[LOG IN]**.

4. Click [Download Windows 32bit GlobalProtect agent] or [Download Windows 64bit GlobalProtect agent] depending on which version of windows you're using 32bit /64bit. Please see the URL below for how to check the version of windows.

https://support.microsoft.com/ja-jp/help/13443/windows-which-version-am-i-running

5. If you see the following dialog, click [Continue with non-Microsoft Store installation].

6. Double-click the downloaded installer. The setup window will appear. Click [Next].

7. Click [Next].
