

## How to use Global Protect(mac version)

### How to connect

1. Click the [globe] icon on the status bar in the top right to start Global Protect.

2. Enter [vpn-matsue2.shimane-u.ac.jp] and click [接続].

3. In Username and Password, enter your user ID and password for shimane university integrated authentication system and click [サインイン].

The image shows a dialog box titled "GlobalProtect" with a gear icon in the top right corner. The main heading is "サインイン" (Sign In) with the subtitle "Enter login credentials". Below this, the portal information is displayed: "Portal(ポータル): vpn-matsue2.shimane-u.ac.jp". There are two input fields: the first contains "XXXXXXXX" and the second contains "●●●●●●". A blue button labeled "サインイン" (Sign In) is positioned below the fields, and a smaller "キャンセル" (Cancel) button is at the bottom center. A red rectangle highlights the two input fields and the "サインイン" button.

4. If you see [Welcome to Global Protect], click [×] to close the dialog.

5. When you see the following screen, your computer is securely connected.

#### How to disconnect

1. Click the [globe] icon on the status bar in the top right to start Global Protect. Click [切断].

2. When you see the following screen, your computer is disconnected from Global Protect.
